Engineering Application Developer

WORK EXPERIENCE

Engineering Application Developer at Greenleaf Engineering Ltd, Noida (January 2019 – Present)

Worked on E-Commerce Based Project on React Js.
Working on Designing 3D Modelling and FEA Projects on AML.

PROJECTS

E-commerce Based Project (Greenleaf React Project)

An e-commerce platform where users can checkout through only single site having multiple items from its different banners, i.e., multiple subsidiaries by using Shopping Cart & Checkout functionality.

Skills used: JavaScript,HTML,CSS and React,Redux.

WebScrapping

Extract Data from Shopping website by using API to Analyse the sales and digital marketing purpose.

Designing Projects (Greenleaf Lisp Project)

My job is to add the new features as per the demand of the Customer's these features are generally solutions related to the real-world problems of the Design Engineers.

Basically, I was working on the C-Lisp which has the flexibility to work with the large data set I have done many projects at Greenleaf.

Skills used: AML.
